

82-429816

DIRECTOR OF CENTRAL INTELLIGENCE
Security Committee

SECOM-D-052

22 February 1982

STAT

MEMORANDUM FOR:

Executive Secretary

STAT

FROM:

Chairman

SUBJECT:

Implementation of NSDD 19

1. Per your request I attended the February 19 meeting called by Mr. Wheeler, NSC Staff Secretary, on implementation of NSDD 19.

2. Chaired by Mr. Steven Sturn, Mr. Wheeler's assistant, the meeting was well attended. Its stated objectives were to:

- devise procedures to implement NSDD 19 which would hold access to a minimum and control and restrict copying
- without imposing distinct and new regulations on top of existing control mechanisms

maintaining a degree of similarity throughout the government on the category of documents to be controlled, and the stringency and utility of the controls.

3. There were a tremendous number of questions which were not answered. Copies of the new cover sheet were distributed (attached). These stimulated additional questions specifically as to what "law" is addressed in the Notice portion. It was evident that the attendees saw considerable resource demands and were not satisfied with guidance. Mr. Sturn said he would seek answers to questions and hold another meeting.

4. Nothing was surfaced at the meeting that modified the previous tasking to the DCI to implement NSDD 19 for the protection of sensitive intelligence. Accordingly we will continue to prepare proposals for DDCI and DCI consideration.
